

First Steps to the Early Years Foundation Stage

Induction to the Early Years Foundation Stage for Practitioners

A new product that helps staff in Early Years settings to quickly become familiar with main aspects of the EYFS requirements as a 'First Step' to knowing more about all the areas for learning for children aged 0-5 years old.

Everyone who works with babies and children from birth to five will need to know about the Early Years Foundation Stage. This includes schools, Children's Centres, Childminders and all the pre-school nurseries, playgroups and other settings. The First Steps to the EYFS pack is an introduction to the EYFS for all professionals working with this age group. The 2 disc pack presents important information in an accessible way, which practitioners can then build on through attending training and further reading.

The pack contains a CD with:

- Information about the Early Years Foundation Stage.
- Charts and accessible information showing the main Themes, Principles and Commitments of the EYFS.
- A Learning and Development Section which includes an introduction and 24 Learning and Development cards across all six areas for learning. The Learning and Development cards provide advice as to how practitioners can work effectively to promote specific areas of Learning and Development and can interact with children to support their development and progress.
- Supplementary Resource Lists for improving areas of the learning environment.

A DVD:

- Including a fun and informative 45 minute film about the key messages within the EYFS presented in an easy to access way. The Learning and Development cards are supported by examples of real life practitioners working in these areas on the DVD, with additional points for learning.

First Steps has proved very useful for staff who are starting to work in EYFS to give them a quick and effective way to know more about the main EYFS requirements. It's a useful refresher for the more experienced staff too.

First Steps to the Early Years Foundation Stage

Other EYFS products include:

Learning Outside in the EYFS – a 2 disc pack with a guide and a film for a more stimulating learning environment outdoors and to maximise learning opportunities across each area for learning.

Supporting Every Child’s Learning in the EYFS – our popular 3 disc pack with high quality guidance on delivering good EYFS practice. This is particularly useful for improving planning. There are 2 DVDs with over 60 clips of training film. Ideal for INSET days.

All three EYFS products can be cut and pasted into policies and planning for settings.
