

# Jumpstart!

Learning from life

- **Designed for parents of children who are 2 – 5 years old to improve parents' involvement in their children's learning**
- **Uses everyday activities at home to support Personal, Social and Emotional Development and Communication, Literacy and Language Development**
- **Ideal for use in all Early Years settings, Schools and Children's Centres to promote learning to give children a great start to their school life**

We have developed a truly original product called **Jumpstart**. It takes a day in the life of a child and turns everyday activities into learning opportunities. We want to show parents that home is the first classroom and how easy it is to turn those activities in the home into real learning. There is a focus on PSED and CLL and this helps parents to give their children help and support and a good **Jumpstart** to their children's education.

**Jumpstart is a sturdy A5 file with fourteen durable learning cards.** There are some cards which help parents help their children develop a love of learning through talking, listening and thinking and feeling really good about themselves. The other cards focus on activities from the moment children wake up until they go to bed. It is full of tips about the best way to get through each day in the roller coaster life of a young child. It gives simple and straightforward advice on how to take advantage of resources in the home and uses friendly and very accessible language.

**It's a great way to respond to the government challenge to improve parental involvement in learning and help you support the youngest and most vulnerable children.**

**Jumpstart comes in boxes of 12 folders priced at £60 plus VAT and P&P**
